

Questions to ask your doctor: Prior to the surgery

1. At which clinic should I get my surgery?

.....

.....

.....

.....

5. What are the risks of this brain surgery?

.....

.....

.....

.....

2. Are there any differences in surgical procedures or special methods?

.....

.....

.....

.....

6. Which brain functions are located nearby the tumour?

.....

.....

.....

.....

3. Is a complete resection of the tumour possible?

.....

.....

.....

.....

7. Are there any impairments I might suffer from after surgery?

.....

.....

.....

.....

4. How long does the surgery take?

.....

.....

.....

.....

8. How long do I need to stay in the hospital and is there any rehabilitation suggested after this kind of surgery?

.....

.....

.....

.....
